-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3653

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1,29-31,41,43,44 and 45 are rejected under 35 U.S.C. 102(e) as being *anticipated** by *Purkey. Purkey discloses the apparatus to effect the method of providing at least two item holder support locations in figure 2 where each item holder is a helix to hold varied sized items for each helix. Each helix has a moving device to rotate each helix and deliver each item to a delivery area. Note a reference surface, which is considered to be 'movably' mounted, is so much as , the surface is attached or moved to the supporting surface below the helix (see the abstract ,lines 2,3). The surface has rows of numbers 34 A,B and 40A,B and where the numbers 34B or 34B would indicated the quantity of items in each of the helix.**In regard to claims 30 and 31 note that the indicia (numbers) are viewable through the turns of the helix and that each of the numbers in the rows are corresponding to the spacing between the turns of the helix, as is shown in figure 2 ..

3. Claims 32-40,42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
